Phase I - Equitable Access to Effective Educators School Diagnostic

Introduction

National data show that poor and minority students, English Language Learners and students with disabilities continue to be taught more often than their peers by inexperienced, out-of-field or ineffective teachers. As a result, the United States Department of Education (USDE) required states to develop equity plans and use evidence based strategies to address this issue. Kentucky's plan is focused on teacher preparation; recruitment, hiring and placement of teachers; providing supports for on-going, job-embedded professional learning; and strategies to retain teacher and leaders.

All districts and schools in Kentucky are required to identify barriers and develop strategies to address these issues to achieving equitable access to effective educators for students most at risk. This is being incorporated within the Comprehensive District and School Improvement Plans. This diagnostic should be used as tool for identification of barriers and a catalyst for development of strategies that will result in novice reduction for gap closure. Strategies will be incorporated into the Comprehensive School Improvement Plan.

School Equity Data (1)	Complete the School Equity Data tab for this diagnostic. Include at least one other self-selected indicator for consideration. *Self-selected data could come from a variety of sources. It should be relevant to the needs of the school. Examples could include: principal, teacher or student demographic data; percentage of National Board Certified Teachers or Advanced Degrees; teacher or principal effectiveness data, TELL, turnover. **The school should complete the information in the chart ONLY for the subgroups reported in the School Report Card where the data has been suppressed to protect student identification required by the Family Educational Rights and Privacy Act (FERPA). Follow the steps below:	I acknowledge that I have uploaded the School Equity Data.	See attached data.	HCHS School Equity Diagnostic

Provide a brief analysis the school data from the chart. Include any trends, note-worthy data points or perceptions the data has provided related to equitable access to effective educators.

Henry County High School had a total of 685 students enrolled and 45 teachers for the 2015-16 school year. 53.28% of students enrolled were qualified for Free/Reduced priced meals. .58% of students were English Language Learners with 11.53% qualifying as students with disabilities. With 84.44% of teachers having 4 or more years of experience, students also had access to 92% of teachers with advanced degrees. Graduating seniors were highly successful with transition to adult life as 97.5% were successful.

After the data analysis is complete, the school will then identify the barriers (challenges) for some of the identified trends. An identified barrier, for example, could be higher teacher turnover in priority schools as compared with non-priority schools. Once the barriers have been identified, then root causes of why the barriers exist will be included.

One major challenge the trends showed was percentage of students qualifying for Free/Reduced priced meals. With 53.28% of students qualifying, this creates an awareness of students in the poverty category.

Goal Setting (4)	Complete the School Equity Goals tab. Use the school's most recent measures in the Equity tab of the School Report Card to set equitable access goals for the next three years. The measures include: Working Conditions, Overall Teacher and Leader Effectiveness, Overall Student Growth, Percentage of new and KTIP teachers, and Percentage of Teacher Turnover. ***Goals should reflect an analysis of barriers, root causes and strategies.	I acknowledge that I have uploaded the School Equity Goal Data.	Attached are the School Equity Goals.	HCHS Equity Goals

Comprehensive School Improvement Plan

Henry County High School

Equitable access to effective educators must be reflected in the Comprehensive School Improvement Plan. Strategies could include, but are not limited to, recruitment; hiring and placement of teachers and/or students; providing supports for on-going, job-embedded professional learning to improve teacher and leader effectiveness; and strategies to retain teacher and leaders, particularly in high needs schools. Once implemented, these should assist the school in meeting the goals set in the previous section.

If there are strategies and activities within one of the five major goals of the CSIP, which adequately addresses equitable access, the school may select the appropriate goal, objective, strategies and activities.

OR

The school may create a new goal to address equitable access to effective educators. Once a new goal has been created, the school will need to include appropriate objectives, strategies and activities.

The school may choose to provide an optional narrative response to include any additional information, but this is not required.

Goal 1:

Implementation of the Teacher Professional Growth and Effectiveness System

Measurable Objective 1:

collaborate to implement the Teacher Professional Growth and Effectiveness System by 05/13/2016 as measured by teacher observations, peer observations, professional growth, self reflection, student voice, and student growth.

Strategy1:

TPGES Implementation - Through a school-wide collaborative effort, the Teacher Professional Growth and Effectiveness System will be used as a measure for teacher professional growth and effectiveness.

Reflection

Reflect upon your responses to each of the Missing Piece objectives.

As a collective community, we are looking for new ways to improve on the opportunities that our students are engaged. These opportunities are centered on College and Career Readiness. This has led to new relationships with local businesses and post-secondary institutions. Students are fully aware of their role in this high stakes accountability world leading to greater success. Parent involvement is an area of concern. Parents are aware of the opportunities for their student but, are not fully involved in the process. Efforts will continue to be made to increase the involvement of all stakeholders to insure we have collective input for the future of all students at Henry County High School.

Improvement Plan Stakeholder Involvement

Introduction

The responses should be brief, descriptive, and appropriate for the specific section. It is recommended that the responses are written offline and then transferred into the sections below.

Improvement Planning Process

Improvement Planning Process

Describe the process used to engage a variety of stakeholders in the development of the institution's improvement plan. Include information on how stakeholders were selected and informed of their roles, and how meetings were scheduled to accommodate them.

The stakeholders involved in improvement plan process included administration, teachers and parents. The SBDM of Henry County High School took the lead role in completing the school's improvement plan. Each stakeholder was responsible for completing and getting input from other stakeholders. The input came from the schools leadership team and PLC department groups. Each group was responsible for setting times for meetings.

Describe the representations from stakeholder groups that participated in the development of the improvement plan and their responsibilities in this process.

The SBDM of Henry County High School took the lead role in completing the school's improvement plan. Each stakeholder was responsible for completing and getting input from other stakeholders. The input came from the schools leadership team and PLC department groups. Each group was responsible for setting times for meetings.

Explain how the final improvement plan was communicated to all stakeholders, and the method and frequency in which stakeholders receive information on its progress.

The final improvement plan was presented to SBDM for approval. The plan will used, for example, by departmental PLC groups on an ongoing basis. The improvement plan included various activities that will be implemented and measured for their effectiveness during implementation.

Phase I - Needs Assessment

Introduction

The purpose of the School Needs Assessment is to use data and information to prioritize allocation of resources and activities.

Data Analysis

What question(s) are you trying to answer with the data and information provided to you? What does the data/information tell you?

What does the data/information not tell you?

In analyzing the data, Henry County High School is looking to improve the following:

- * Implementation of the Teacher Professional Growth and Effectiveness System.
- * Increase the percentage of students who are college and career ready.
- * Increase the average combined reading and math proficiency ratings for all students in the non-duplicated GAP group.
- * Meet the graduation rate for the 2017 graduating class.
- * Increase the combined proficient/distinguished percentage of all students in reading and math.

The data shows we have made great gains in CCR, Graduation Rate, Achievement, and Gap. It shows that we need to continue to focus on our Non-Duplicated Gap Group in both Math and Reading. It has shown we need put literacy as a central focus across content areas.

The data does not tell us what specific tools are best practice for improvement.

Areas of Strengths

What were the areas of strength you noted? What actions are you implementing to sustain the areas of strength? What is there cause to celebrate?

The data has identified that Henry County High School as Distinguished, Progressing, and High Performing. Henry County High School has shown strengths in College and Career Readiness, Achievement, Program Reviews, and Graduation Rate. We are continuing to build upon implemented activities that build student success. In the development of the Comprehensive School Improvement Plan, we have planned specific areas to target for continued growth. We will continue to celebrate as a school through student and faculty special recognitions, local newspaper articles, school website postings, and on our wall of honor.

Opportunities for Improvement

What were areas in need of improvement? What plans are you making to improve the areas of need?

Henry County High School will continue to improve in all areas of accountability. Specific areas of focus will continue to be placed on Achievement and GAP. We have set our specific goals in our CSIP to target each area of need. This plan has been shared with input from a variety of stakeholders in effort to improve growth and success.

Conclusion

Reflect on your answers provided in the previous sections. What are your next steps in addressing areas of concern?

Our next steps are to implement the activities in our CSIP. We will continue to monitor and update our intentionally targeted activities to insure student growth and success.

Phase II - KDE Compliance and Accountability - Schools

Introduction

The process of Improvement Planning in Kentucky is used as the means of determining how schools and districts will plan to ensure that students reach proficiency and beyond by 2015. The process focuses school and district improvement efforts on student needs by bringing together all stakeholders to plan for improvement, by focusing planning efforts on priority needs and closing achievement gaps between subgroups of students, by building upon school and district capacity for high quality planning, and by making connections between the funds that flow into the district and the priority needs in schools.

Your school's plans for improvement must be based on careful and honest analysis of data, address all content areas, and clearly address gaps in student achievement.

Planning and Accountability Requirements

The school has identified specific strategies to address areas for improvement identified in the TELLKY Survey results.

Goal 1:

Increase the average combined reading and math proficiency ratings for all students in the non-duplicated GAP group.

Measurable Objective 1:

52% of Tenth, Eleventh and Twelfth grade students will demonstrate a proficiency level in Reading by 05/17/2017 as measured by increasing the average combined reading and math proficiency ratings for all students in the non-duplicated gap group from 32% to 52%.

Strategy1:

GAP Proficiency - Teachers will work collectively to develop differentiated instructional activities to reduce the GAP proficiency ratings in the non-duplicated gap group.

Category: Continuous Improvement

Research Cited: Teachers will work collectively to develop differentiated instructional activities to reduce the GAP proficiency ratings in the non-duplicated gap group.

Executive Summary

Introduction

Every school has its own story to tell. The context in which teaching and learning takes place influences the processes and procedures by which the school makes decisions around curriculum, instruction, and assessment. The context also impacts the way a school stays faithful to its vision. Many factors contribute to the overall narrative such as an identification of stakeholders, a description of stakeholder engagement, the trends and issues affecting the school, and the kinds of programs and services that a school implements to support student learning.

The purpose of the Executive Summary (ES) is to provide a school with an opportunity to describe in narrative form the strengths and challenges it encounters. By doing so, the public and members of the school community will have a more complete picture of how the school perceives itself and the process of self-reflection for continuous improvement. This summary is structured for the school to reflect on how it provides teaching and learning on a day to day basis.

Description of the School

Describe the school's size, community/communities, location, and changes it has experienced in the last three years. Include demographic information about the students, staff, and community at large. What unique features and challenges are associated with the community/communities the school serves?

Henry County High School is located in the heart of Kentucky's Bluegrass. With a student population of 684, we strive to make student success our business. Henry County High School is working to build a true learning community of students and adults committed to being lifelong learners. Good improvement has been made in all tested content areas, percentage of juniors meeting all four ACT benchmark scores, and increase the number of career ready students. The mission of answering four critical questions continues: What do we want students to learn? How do we know they learned it? How will we respond if they do not? How will we respond if they do? A brief answer is posting of congruent learning targets, use formative assessments to measure learning and drive instruction and provide intervention and extension of learning. Teachers meet weekly to improve targets, assessments and instruction in order to create a more successful learning environment. Seniors explore career opportunities, analyze community needs and provide a solution to promote civic responsibility as young citizens of Henry County.

School's Purpose

Provide the school's purpose statement and ancillary content such as mission, vision, values, and/or beliefs. Describe how the school embodies its purpose through its program offerings and expectations for students.

Our mission is to ensure that all students of Henry County High School have the opportunity to reach high academic performance and creativity, independent thinking, physical well-being, and social and vocational skills through a cooperative effort of home, school and community so that they may be productive members of society. Our goals are firmly rooted in moving students toward their goals in life. Henry County High school strives to engage students in learning, starting one student at a time. The Henry County High School family has a top notch student body, a caring, creative, and committed staff, supportive parents, and a fantastic community that promotes learning. It is our goal to continue moving HCHS forward in the 21st Century. This can be done through helping students discover their potential and provided avenues to achieve it. We are dedicated to continuing a strong tradition devoted to teaching students to be prompt, prepared, polite, produce, participate, and positive attitude. It is through those six core values that we strive to build the foundation of our student's future. It is only together that we can achieve unlimited personal and academic growth.

Notable Achievements and Areas of Improvement

Describe the school's notable achievements and areas of improvement in the last three years. Additionally, describe areas for improvement that the school is striving to achieve in the next three years.

HCHS recently celebrated being classified as Distinguished/Progressing in the category of a High Performing School. HCHS continues to make improvements in Achievement, Gap, College and Career Readiness, and Graduation Rate. It is our continual goal to improve our overall academic achievement on the End of Course exams. Specific focus is being placed on GAP areas. A literacy focus is being addressed across the content areas.

Additional Information

Provide any additional information you would like to share with the public and community that were not prompted in the previous sections.

Henry County High School is committed to ensure that all students, regardless of socioeconomic status, have access to a variety of courses dedicated to promote student learning and the ability to pursue post-secondary education and/or the job field with equal success.
